VIA Whip Spring Family

UDHDSS

Ultra Duty Heavy Duty Stainless Steel Spring.

This spring is designed to enable longer lengths of VIA Whips. The UDHDSSS is used with VIA Whip Extensions of EX6", EX12", EX18", EX24" and EX36" lengths and the VIA 8 Whips to achieve the mines requirement of Whip Overall Heights.

HDSSS

Heavy Duty Stainless Steel Spring

This Spring is designed for use with the VIA 8 Whips. This spring keeps the VIA Whips in an upright position without the whip flopping around at vehicle higher speeds or in excessive windy conditions.

SDSSS

Standard Duty Stainless Steel Base Spring

This spring is designed for use with shorter whips such as the VIA 5 and VIA 3 Whips.

LDSSS

Light Duty Stainless Steel Spring

This Spring is designed for use with ATV, Snowmobile, Bicycle and Wheel Chair Whips and other Whip Applications.
